

# Castle Rock Chamber of Commerce

## Minutes of June 10th, 2010

Welcome and Introductions – President Mike Vorse called meeting to order at 8:33 am

**GUEST SPEAKER** was Luanna Grow – BPA Sr. Policy Advisor, Public Affairs, speaking about how the Bonneville Power Administration is in the process of setting a new major high-voltage transmission line between Castle Rock, WA. and Troutdale, OR. She said they were a Federal not for profit agency and worked for the Dept. of Energy then handed out maps of the proposed high voltage power transmission lines. She also explained that Castle Rock was not an end destination but a distribution point to other locations. She explained that there was “organized opposition” to using the existing path and that there will be updates to the map in the next 2-3 weeks; however the final analysis would probably take 2 more years and they wouldn’t start building until 2015.

**Secretary’s Report** – minutes voted and approved

**Treasurer’s Report** – voted and approved
